

ABOUT AIR PAINTERS

Founded in 2003, Air Painters is now the fastest-growing painting company in the Niagara Region. Our company sets itself apart from the competition by providing quality service that is both reliable and professional. It is our goal that the client's experience is pleasant from the initial contact to completion.

We maintain one of the largest staff for commercial painters in the area, handling multiple large-scale projects at any given time. With an extensive knowledge of various products, we are able to meet the needs of clients in the Industrial, Commercial, Institutional, and Residential realms.

Large-scale projects encounter many challenges, but we are able to manage and complete these successfully. Our company structure allows us to deal with issues such as tight deadlines, coordinating with other trades, and variable client schedules.

While most of our service area falls within with Niagara Region, we occasionally do work in the GTA and beyond.

Air Painters specializes in:

- Airless Spraying
- Conventional Painting
- Interior/Exterior
- Dryfall Steel Decking
- Epoxy Coatings
- Textured Spray
- California Knock Down
- Line Spraying

ABOUT THE FOUNDER

**"WE ARE NOT AN AVERAGE PAINT COMPANY-
WE ARE COATING SPECIALISTS THAT PROVIDE
RELIABLE & PROFESSIONAL SERVICE"**

Anders Ireborg, born and raised in Sweden, first took an interest in construction during DIY renovation projects with his father in the family home. After settling in Canada at the age of 16, he worked on many small painting projects for friends and family. In 1999 he began his full-time painting career, and studied the trade learning conventional painting in custom new homes. Then in September 2003, he established Air Painters and expanded his interest into the areas of airless application methods and epoxy coatings.
